TAKAPLAST

Industrial tri-stream plastic recycling · Kinshasa, DRC

€7.87 M TOTAL FUNDING · **18,250 t/year** PHASE 1 CAPACITY · **18–22 months** CAPEX PAYBACK · **400 %** 5-YEAR ROI

THE PROJECT

TakaPlast collects and transforms **50 tons/day of plastic waste from Kinshasa** into three high-value products through an integrated tri-stream industrial hub.

Three complementary revenue streams:

- **HDPE/PP pellets** — 11,077 t/year at €650/t → **€7.2 M/year**
- **Plastic-cement paving blocks (construction)** — 276,000 m²/year at €10/m² → **€2.76 M/year**
- **LPG/Syngas (energy)** — 2.4 M liters/year at €0.85/L → **€2.04 M/year**
- + **Carbon credits** (Gold Standard) → **€0.5 M/year** from year 3

Total year-3 revenue: €12.5 M · **Year-3 EBITDA:** €7.8 M (67 % margin)

THE OPPORTUNITY

Kinshasa: massive feedstock, almost no infrastructure

- Only **5 %** of plastic waste is properly treated today
- Around **100,000 t/year** of plastic reach the Congo River
- **95 % treatment capacity deficit** vs Île-de-France, at similar population scale

Global plastic recycling market: US$57 B (2023) → US$95 B (2030) — **7.5 % CAGR**

TakaPlast is the only tri-stream operator in Kinshasa: cost-competitive pellets (**−41 % vs Asian imports**), paving blocks for construction, LPG gasification.

FINANCIAL PROJECTIONS

	Yr1	Yr2	Yr3	Yr4	Yr5
Core revenue (M€)	1.8	9.5	11.6	12.0	12.0
Adj. revenue (M€)	0.0	0.2	0.7	2.0	3.3
Total revenue (M€)	**1.8**	**9.7**	**12.3**	**14.0**	**15.3**
OPEX (M€)	1.7	3.2	3.9	3.9	3.9
EBITDA (M€)	0.06	6.3	7.8	8.1	8.1
EBITDA margin (%)	3	66	67	68	68

CAPEX payback: 18–22 months · **EBITDA breakeven:** month 12 · **5-year post-tax ROI:** ≈ 400 %

CLIMATE & SOCIAL IMPACT

55,080 tCO_2eq avoided per year, equivalent to **≈12,000 cars removed from the road**.

114 direct jobs + **50 collector cooperatives** at full capacity (164 total jobs supported).

Target SDGs: SDG 8 (decent jobs, 4× minimum wage) · SDG 11 (50 t/day in Kinshasa) · SDG 12 (zero-waste tri-stream model) · SDG 13 (climate)

FUNDING: €7.87 M

Use of funds	Amount (M€)	Share
Tri-stream industrial equipment	2.12	27 %
Vehicles (5 compactors, 7 SUVs)	1.79	23 %
Construction & site utilities	1.16	15 %
IT, legal, training	0.27	3 %
Contingency (10 %)	0.53	7 %
Working capital (24 months)	2.00	25 %
TOTAL	**7.87**	**100 %**

100 % investor-funded · Milestone-based disbursement · Fiduciary management

---

TEAM

Founding CEO — Joël M'Bavu Oxybel (project management and climate-finance structuring between Europe and Africa)

Managing Director — Grant (planned from month 8)

CTO — Plastic processes (critical from month 1, sourced from INPP/diaspora profiles)

COO, CMO, CCO, CFO — Accelerated recruitment between months 1 and 10

All C-level roles include a company vehicle and performance-based bonuses.

NEXT STEPS

TakaPlast is seeking €7.87 M to deploy Phase 1 (50 t/day capacity) over 24 months.

Contact us to receive the full documentation and discuss potential investment structures.
